- parking place

Full description

If you want to go to the beach by foot and you are tired of driving around and looking for parking or paying for a parking spot, you must see this semi-detached house. It is large enough for a family of 4 and big enough to host your dearest grandparents and friends: with its 4 bedrooms and 2 bathrooms there is room for everyone. It is only 600 meters from the beach; near both free beaches and private beach establishments, which can be reached by foot. The private parking space is a great convenience. The garden is completely accessible because the house is developed entirely on the ground floor and both entrances from the kitchen and the living room lead to the garden, making it easy to eat outside on hot summer evenings or prepare barbecues with friends. Even the shops in the Pozzino area are easily accessible for daily shopping. Call us on 0564/935070 and come to see the base of your next holidays in Punta Ala.
